Adventure 70L

The Caribee Adventure 70 Hybrid wheel travel backpack features fabrics that are made from recycled plastic bottles. Boasting a 70L main storage capacity with internal compression system and large zip storage pocket, the Adventure 70 increases its appeal as a versatile travel bag with the inclusion of two front pockets that provide additional storage up top and a separate shoe pocket down low. A telescopic dual arm trolley system combines with quality all terrain wheels to ensure you glide through the airport and on to your travel destination. If the going gets rough, deploy the Adventure 70's concealable backpack harness system featuring padded shoulder straps and hip belt and convert your travel bag into a travel backpack.

Global Explorer

As the name suggests, the Global Explorer is designed as your home away from home. Its massive 125L capacity stores your gear in handy split level compartments with zip dividers, giving you quick organised access to your gear whilst travelling. On the outside, this travel bag has plenty of handles for easy lifting from cars, buses or airport carousels and the aluminium trolley system helps guide the oversized wheels to your destination. So pack your ski gear, surf gear, holiday or work gear and get travelling today!

3 Level Packing Design

Oversized Wheels

Global Explorer 125L

- Designed as the ultimate large capacity 125L wheel travel bag
- Convenient triple level design luggage for simple, easy packing & unpacking
- Three levels of internal zip dividers keeps your gear separated and organised or open the dividers to create a single large volume travel bag
- Premium quality aluminium push button trolley system assists luggage movement
- Oversized "go anywhere" wheels for easy manoeuvrability to your travel destination
- Padded comfort grab handles provided for easy retrieval from the airport carousel
- Heavy duty QR compression straps help keep your bag and the gear inside secure
- Handy front panel zip stash pocket that's ideal for quick grab items whilst in transit
- Lockable heavy duty zips provide security and protection for your gear
- Base slide rails deliver reinforcement and added protection to the bag in transit

Scarecrow Series

Designed as the popular all-rounder, the Caribee Scarecrow Series is a popular travel luggage option. These bags great looks are complimented by their many features that make them appeal for use with travel, sports and work. The versatile split level trolley bag design features an internal divider that can divide the bag in two, or open to provide you with one large space for packing. The large top U shape zip opening provides quick access, or you have the option of opening the bag in two, like a traditional suitcase for better access. The dedicated end zip shoe pocket keeps your footwear away from your clean clothes and the aluminium push button trolley with premium wheels help get you to your ultimate destination.

Scarecrow DX 85 and DX 70

- Split level trolley bag / travel luggage design
- Internal divider can separate top & bottom compartments
- Large top U-shape zip opening for quick top down access
- #10 side zip for split level access opens just like a traditional luggage suitcase
- Dedicated end zippered shoe pocket keeps footwear separate from your clean gear
- Multiple storage zip pockets keeps you organised
- Premium aluminium push button trolley system
- All Terrain Wheels for easy movement
- Base grip/stand and slide rails provide added protection to the bag in transit
- Internal and external QR compression system secures your gear
- Comfort grip grab handles
- Lockable heavy duty zips provide security and protection for your gear
- Folding top section for compact storage

The Caribee X-tend adjustable harness features fully adjustable shoulder straps ensuring each pack can fit correctly and provide maximum ergonomic support to the individuals back. The X-tend system also combines this feature with a contoured internal aluminium frame and an adjustable hip belt with lumbar support, ensure the backpack's load is distributed safely, efficiently and most effectively. The adjustable shoulder straps found on this system also allow the backpack to be readjusted as the student or adult grows.

College 40 X-Tend

Spider 4 / Easy Up Tent

The quick set up Caribee Spider 4 tent using the Easy Up telescopic pole system. Designed for four adults, this new quick setup tent is not only light weight, but can be set up in just minutes. Great ventilation from the front door and rear mesh window combine with the inclusion of lower ventilation ports, help make this tent perfect for the Australian outdoors. Don't waste your time with traditional set up tents, make camping enjoyable once more with Caribee's Easy Up Series of tents.

The new Caribee Easy Up pole system provides campers with a revolutionary quick set up telescopic pole system that makes traditional pole tents feel old fashioned. This unique system, is not an instant pop up design, rather campers extend the Easy Up's telescopic poles to raise the tent in to position. Not only does this drastically reduce the time it takes to set up and pack away your tent, it is also light in weight and is a system that is perfect for larger tent designs. Caribee's Easy Up tents set up 70% quicker to set up than a comparable tent using a traditional fibreglass pole system.

- Sleeps up to 4 adults
- Polyester PU 1500mm seam sealed fly and inner tent
- "Easy Up" telescopic pole system (fibreglass & steel)
- Large "No-see-um" mesh windows
- Lower side ventilation ports
- Front and rear fly extensions
- Rear power port
- Heavy duty PE floor
- Zippered carry bag included
